BUSINESS AND GENERAL INFORMATION

ITEM 1. BUSINESS

1.1 Corporate Profile

Century Peak Metals Holdings Corporation (“CPMHC”, the “Company”, the “Parent Company”, or the “Issuer”), was registered with the Philippine Securities and Exchange Commission (“SEC”) on December 30, 2003.

On April 14, 2008, the SEC approved the amendment of the Company’s articles of incorporation. Its primary purpose was changed to include promoting, operating, managing, holding, acquiring or investing in corporations or entities that are engaged in mining activities or mining-related activities. The Company further expanded its primary purpose by including investing in real estate development and energy. The amended articles of incorporation were approved by the SEC on March 18, 2010.

The Parent Company listed its common shares of stock with the Philippine Stock Exchange (“PSE”) on October 6, 2009.

The Parent Company operates as the holding company of the following subsidiaries:

	Percentage of Ownership ^(a)	
	Direct	Indirect
Century Peak Corporation (CPC)	100.00	-
Century Peak Mineral Development Corporation (CPMDC) ^(c)	100.00	-
Century Peak Cement Manufacturing Corporation (CPCMC) ^(c)	100.00	-
Century Sidewide Smelting Incorporated (CSSI) ^(b)	60.00	-
Century Hua Guang Smelting Incorporated (CHGSI) ^(b)	55.00	-
Century Summit Carrier, Inc. (CSCI) ^(d)	-	80.00

^(a)Based on the Parent Company’s interest in the issued and outstanding shares of the subsidiaries.

^(b)CSSI and CHGSI have not yet started commercial operations.

^(c)CPMDC and CPCMC were incorporated in 2015 and have not yet started commercial operations.

^(d)Owned by the Parent Company through CPC.

The registered office address of the Parent Company is at 14F Equitable Tower, 8751 Paseo de Roxas, Salcedo Village, Makati City.

The Parent Company’s subsidiaries were all incorporated in the Philippines and registered with the SEC. Their principal activities are as follows:

Century Peak Corporation

CPC was registered with the SEC on March 30, 2006.

The principal activities of CPC is to invest in and engage in the business of operating and mining of mineral resources in the Philippines such as iron ore, copper, gold, silver, lead, manganese, chromites, nickel, etc. and prospecting, exploring, milling, concentrating, converting, smelting, treating, refining and manufacturing, and preparing for the market, whether export or domestic, and producing and dealing in all its products and by-products, whether export or domestic, and producing and dealing in all its products and by-products of every kind and description and by whatsoever the same can be or may hereafter be produced.

On May 7, 2010 CPC was registered with the Board of Investments (BOI) with Certificate of Registration No. 2010-093, on its mining and extraction of nickel ore at Casiguran, Loreto, Province of Dinagat, as a new project on a Non-Pioneer Status under the Omnibus Investments Code of 1987 (Executive Order No. 226).

As a BOI-registered entity, CPC is entitled to the following incentives, among others:

- a. Tax credit on taxes and duties paid on raw materials and supplies used in producing its export product for a period of ten (10) years from start of commercial operations;
- b. Importation of consigned equipment for a period of ten (10) years from date of registration, subject to posting of re-export bond;
- c. Exemption from wharfage dues, any export tax, duties, imposts and fees for a ten (10) year period from date of registration; and
- d. Simplification of customs procedures for the importation of equipment, spare parts, raw materials and supplies.

Mining Operations

CPC has mining activities in selected areas covered by its MPSA in the province of Dinagat Islands.

There are two Geologic Resource Evaluation Reports for the Casiguran Nickel Project and a Resource Evaluation Report for the Rapid City Parcel II Prospect, which were prepared by Dr. Carlo A. Arcilla, an accredited competent person in accordance with the definition of the Philippine Mineral Reporting Code.

Based on the reports, the Casiguran Nickel Project and Rapid City Parcel II Prospect have a combined indicated and measured resource of 9,897,000 dry metric tons (DMT) with a grade of 1.02% nickel (at 0.8% nickel cut-off) and 9,067,000 DMT with a grade of 1.07% nickel (at 0.8% nickel cut-off), respectively. These represent 100,000 metric tons of pure nickel and 3.5 million tons of iron and 90,000 tons of pure nickel and 3.8 million tons of iron for the Casiguran Nickel Project and Rapid City Parcel II Prospect, respectively, subject to mining plans and metal recovery parameters.

Management looks forward to continue developing and exploring these mineral properties either on its own or with joint venture partners.

Extension of Mineral Production Sharing Agreement (MPSA) 010-92-X (Casiguran Nickel Project)

On May 11, 2016, CPC filed an application for renewal for MPSA No. 010-92-X at the MGB Regional Office No. XIII, set to expire on May 6, 2017.

In response to the initial filing for renewal, MGB Regional Office No. XIII has directed CPC last January 11, 2017 to submit certain requirements. CPC subsequently refiled its application for renewal on August 15, 2017.

On September 12, 2017, MGB Regional Office No. XIII through its letter, informed CPC that its application has not been endorsed to the MGB Central Office for further review and evaluation pending the remaining mandatory requirements.

As at report date, outstanding requirements for submission to MGB include Local Government Unit (LGU) project approval/endorsement in the form of a resolution from the Sangguniang Bayan of Loreto, Dinagat Islands and from Sangguniang Barangay of Barangay Panamaon, Loreto, Dinagat Islands. Currently, CPC is in the process of obtaining the required endorsements from the Sangguniang Bayan of Loreto and Sangguniang Barangay of Panamaon through implementation of the remaining Social Development and Management Program (SDMP) as required by the Sangguniang Barangay, which is expected to be completed by the end of April 2018.

Management believes that full implementation and completion of these projects will cause the issuance of the required endorsement based on management discussion with the Sangguniang Barangay.

Nevertheless, MGB issued a certification dated April 5, 2018, stating that CPC is the holder/operator of the valid and subsisting mining tenements subject for renewal. Given these conditions, management believes that MGB will approve the renewal of the MPSA.

Century Hua Guang Smelting Incorporated

CHGSI is registered with the SEC on January 14, 2008.

The principal activities of CHGSI are to invest in and engage in the business of operating and mining mineral resources in the Philippines such as iron ore, copper, gold, silver, lead, manganese, chromites, nickel, etc. and prospecting, exploring, milling, concentrating, converting, smelting, treating, refining and manufacturing, and preparing for the market, whether export or domestic, and producing and dealing in all its products and by-products of every kind and description and by whatsoever process the same can be or may hereafter be produced.

On October 28, 2009, CHGSI was registered with PEZA under Certificate of Registration No.09-56 for the production of ferro-nickel (pig iron) at the Leyte Industrial Development Estate - Special Economic Zone.

By virtue of its PEZA Registration, CHGSI is entitled, among other incentives, to four (4) years Income Tax Holiday, which shall be reckoned upon its start of commercial operations, as well as tax and duty free importation of its capital equipment and raw materials, subject to its compliance with the terms and conditions of its registration.

Moreover, CHGSI has an approved application with PEZA for its proposed Coking Coal Production Project, and the Supplemental Agreement to its Registration Agreement last October 28, 2009 was signed into effect last March 1, 2011.

CHGSI Registration with MGB and EMB

CHGSI has filed its application for a Mineral Processing Permit (MPP) for its Smelting Plant and is currently under evaluation with the MGB Regional Office, Region 8. It has received its Amended Environmental Compliance Certificate (ECC), with Reference Code 1003-0011 issued by the Environmental Management Bureau (EMB) - Central Office, to include the installation of a Coking Coal Plant, aside from its smelting plant, also to be located at the Leyte Industrial Development Estate (LIDE) in Isabel, Leyte.

Century Sidewide Smelting Incorporated

The Company entered into joint-venture with Sidewide Resources (H.K.) Limited, a subsidiary of Chaoyang Saiwai Mining Co., Ltd. of P.R. China. This group owns an iron powder processing plant, electric furnace smelting plant, and primarily does trading of mineral ore. They have offices in Beijing, Shanghai and Hong Kong. It is the Company's plan to set up electric furnaces in the future to enhance the production of its nickel pig-iron. From this newly formed partnership CSSI was incorporated.

CSSI is incorporated in the Philippines on September 6, 2011.

The primary purpose of CSSI is to invest in the business of operating and mining mineral resources (mineral ores) in the Philippines. CSSI's activities also involve prospecting, exploring, milling, smelting and preparing for market, whether export or domestic, of mineral ores.

Century Summit Carrier, Inc.

On December 8, 2011, CSCI was registered with the Maritime Industry Authority with Certificate No. DSO-2006-003-086 (2014) under Marina Circular 2006-003, which is valid until December 7, 2017.

Century Peak Mineral Development Corp. and Century Peak Cement Manufacturing Corp.

Through MPSA 046-96-VII and MPSA 047-96-VII expiring in 2021, the Group has 4,795 hectares in Pinamungahan, Cebu to mine limestone. An initial resource assessment conducted in 2012 on an 81 hectare area estimate as indicated limestone resource of 34,000,000 metric tons.

In April and July 2015, the Group was able to obtain the Environmental Compliance Certificate (ECC) for the Cement Plant/Power Plant and Limestone Quarry Project, respectively. In addition, local government approvals were obtained for the project.

Mineral Rights

The table below summarizes the Group's mineral rights:

Tenement Designation	Area Covered (in Hectares)	Location
Mineral Production Sharing Agreement (MPSA) 010-92-X	1,198	Casiguran, Loreto, Dinagat Islands
MPSA-283-2009-XIII-SMR Application for Mineral Production Sharing Agreement (APSA) 086-XIII	3,188	Libjo (Albor), Dinagat Islands
	718	Acoje, Loreto, Dinagat Islands

CPC acquired MPSA-010-92-X or the "Casiguran Nickel Project," by virtue of a deed of assignment executed with Casiguran Mining Corporation on May 29, 2006, which was approved by the Department of Environment and Natural Resources (DENR) on December 11, 2006.

MPSA-283-2009-XIII-SMR was approved by the DENR on June 19, 2009.

The Acoje Property is covered by APSA-086-XIII and Environmental Compliance Certificate (ECC) No. 008-345-301C. APSA-086-XIII is still under final evaluation with the Mines and Geosciences Bureau (MGB) Central Office as at December 31, 2017. On November 18, 2010, CPC entered into a joint operating agreement with the PMDC, whereby CPC will act as the operator in the exploration, development, mining operation and utilization of the limestone and associated mineral deposits in Toledo and Pinamungahan, Cebu owned by PMDC. The mineral deposit has a total area of 4,795 hectares and is covered by MPSA-045-96-VII and MPSA-046-96-VII.

1.2 Products/Sales

The Group's Dinagat operations produce nickel and chromite ores. Total ore extracted, processed, and sold in 2017 and 2016 aggregate to 652,604 and 947,737 wet metric tons (wmt) respectively. Revenues generated from 100% export sales to China total P303.68 million and P419.23 million for 2017 and 2016, respectively. There were P419.2 million sales reported for CY 2015. Hereunder is a summary of sales for the 3-year period 2015-2017:

	2017	2016	2015
Production (in wet metric tons)	652,604	947,737	337,349
Revenue (in million pesos)	324.57	419.23	230.54

The Dinagat operations continuously produce majority of its material, however, the Group is eyeing other opportunities to support its market demand.

1.3 Rights and Contracts

DENR Mining Audit

Mining Audit under the Current Administration

On a letter dated October 3, 2016, the DENR notified CPC of the results, findings and recommendations of the mining audit conducted for the operations in Loreto and Libjo, Dinagat Islands pursuant to the DENR Memorandum Circular No. 2016-01 re: Audit of All Operating Mines and Moratorium on New Mining Projects issued on July 29, 2016.

On a letter dated October 23, 2016, CPC responded by submitting a complete update on the DENR recommendations and changes implemented by CPC.

On January 16, 2017, a "Memorandum to the Secretary" was submitted by the DENR's Technical Review Committee, which is tasked to review the results of the mining audit report and submitted comments and explanation of CPC, recommending the suspensions of the CPC's Environmental Compliance Certificate (ECC), Ore Transport Permit and/or Mineral Export Permit pertaining to its mining operations in Loreto, Libjo, Dinagat Islands and find CPC for various violations.

On February 2, 2017, the DENR released a list of mining firms for closure and suspension. CPC was excluded on the aforementioned list.

CPC has not received any formal letter from the DENR pertaining to the suspension of its ECC, Ore Transport Permit and/or Mineral Export Permit.

DENR Adverse Findings on the Cement and Limestone Project

On December 14, 2016 the DENR issued Notice of Adverse Findings (NAF) with regards to CPC's ECC-CO-1505-0017 for the proposed Cement and Limestone project ("the Project") in Pinamungahan, Cebu.

On a letter dated December 23, 2016, CPC responded to the issued NAF by the DENR indicating that the Project’s ECC should not be cancelled nor suspended as CPC has substantively complied with the conditions set forth in the ECC.

CPC has not received any formal letter from DENR pertaining to their reply on the NAF.

Development and Rehabilitation

The Philippine Mining Act requires the Company and its subsidiaries (collectively referred to as the “Group”)to contribute an amount equivalent to 3-5% of direct mining costs for the implementation of an annual environmental protection and enhancement program.

Funds for mine rehabilitation and other environmental guarantee funds are established and deposited in trust funds, in compliance with the Philippine Mining Act. The Group has trust funds amounting to P40.1 million as at December 31, 2017. In 2016, the Group spent P2.8 million for social development.

Corporate social responsibility is a core philosophy of the Group, and is shown in its commitment to protect and care for the communities and the environment affected by its mining operations. Through its Social Development and Management Program (SDMP), the Group undertakes activities to promote the welfare and quality of life of the people in its area. It seeks to establish a partnership with these communities and develop capability to address their needs and eventually address related local issues and concerns. The Group recently formed a working committee to conduct grassroots projects for health, education and social services, all designed in close coordination with relevant local government units and communities.

1.4 Employees

As at December 31, 2017, the Group has approximately 101 employees. Of these, approximately 53 are employed in mining operations, while approximately 48 are engaged in various administrative, technical and professional roles, including senior management. Seasonal employees were hired during the mining season to augment current regular positions.

In summary, the details of manpower strength are:

	Head Office	Mine site	Total
Senior management	2	-	2
Lower management	6	-	6
Rank & file	40	53	93
Total	48	53	101

Salaries and benefits are based on employees’ and company performance.

1.5 Risks

Overview

The Group's financial instruments consist of cash, trade receivables, rehabilitation funds, AFS financial assets, due to related parties and accounts payable and other current liabilities. The main purpose of these financial instruments is to finance the Group's current operations. The main risks arising from the use of these financial instruments are credit risk, liquidity risk and market risk.

Risk Management Framework

The BOD and management have overall responsibility for the establishment and oversight of the Group's risk management framework.

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations. There were no changes in the Group's objectives, policies and processes for managing the risk and the methods used to measure the risk from previous year.

Credit Risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's bank deposits and trade debtors and is monitored on an ongoing basis. The objective is to reduce the risk of loss through default by counterparties. The risk is managed by spreading financial transactions, including bank deposits, across an approved list of high quality banks.

Exposure to Credit Risk

The carrying amounts of financial assets, which are classified as loans and receivables, represent the maximum credit exposure. Credit risk at the reporting date is as follows:

	December 31, 2017	December 31, 2016
Cash in banks	P41,466,164	P48,910,032
Rehabilitation funds	40,060,898	37,501,792
	P81,527,062	P86,411,824

Cash are considered good quality as these pertain to deposits in reputable banks.

The Group establishes an allowance for impairment losses that represents its estimate of incurred losses in respect of trade receivables. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for groups of similar assets in respect of losses that have been incurred but not yet identified. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets.

The Group believes that the unimpaired amounts of not past due and past due are collectible, based on historic payment behavior and extensive analysis of customers counterparties credit risk.

Cash in banks and rehabilitation funds are of high grade quality. High grade cash in banks and rehabilitation funds are invested and deposited in reputable local banks. Trade receivables are of standard grade quality as at December 31, 2017 and 2016, respectively. Standard grade quality financial assets are those assessed as having minimal to regular instances of payment default due to ordinary/common collection issues. These accounts are typically not impaired as the counterparties generally respond to credit actions and update their payments accordingly.

The credit qualities of financial assets that were neither past due nor impaired are determined as follows:

- Cash in banks and rehabilitation funds are based on the credit standing or rating of the counterparty.

Liquidity Risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group considers expected cash flows from financial assets in assessing and managing liquidity risk, in particular its cash resources. Cash balances are managed with two main objectives: maintain maximum liquidity and minimize the cost of borrowing.

Exposure to Liquidity Risk

The following tables summarize the maturity of the Group's financial liabilities as at December 31, 2017 and 2016 based on contractual repayment arrangements:

	2017		
	Carrying Amount	Contractual Cash Flows	Within One Year
Accounts payable and other currentliabilities	P73,426,430	P73,426,430	P73,426,430
Due to related parties	204,205,781	204,205,781	204,205,781
	P277,632,211	P277,632,211	P277,632,211

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

Market Risks

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

Exposures to Foreign Currency Risk

The Group's currency exposure is limited to foreign currency denominated bank accounts as well as transactions comprising of receivables and payables. Since it is a 100% export company, all its sales transactions are in foreign currency, specifically denominated in US Dollars.

The following table shows the Group's significant foreign currency-denominated monetary assets and liabilities in their US Dollar (USD) and Philippine Peso equivalents:

	2017	
	U.S. Dollar	PhilippinePeso ¹
Current financial assets:		
Cash	\$36,288	P1,837,207

¹The exchange rate used to convert the U.S. dollar amounts into Philippine peso was US\$1.00 to P49.93, the peso-dollar exchange rate as quoted in the Philippine Dealing System as at December 31, 2017.

There were no other significant foreign currency-denominated monetary assets and liabilities as at December 31, 2017.

Commodity price risk

The Group's mine product revenues are based on international commodity quotations (i.e., primarily on London Metal Exchange quotes) over which the Group has no significant influence or control. This exposes the Group's results of operations to commodity price volatilities that may significantly impact its cash flows.

1.6 Key Performance Indicators

The Company's management intends to analyze future results of operations through the following key performance indicators, among other measures:

Tons Extracted and Ore Grade Sold and Shipped

Tons extracted and ore grade are key determinants of sales volume. Higher tonnage and ore grade are directly proportional to revenue level.

Actual Production Cost

Production cost per ton is a key measure of operating efficiency. A lower unit production cost both in ore extraction and smelting operation will result in the Company meeting, if not exceeding, its profitability targets.

Earnings Per Share

The Company's earnings per share are a key measure of the Company's effectiveness in meeting its financial targets that in turn, will provide investors comparable benchmarks relative to similar companies.

1.7 Distribution Methods of Products and Services

Demand for Nickel from China

China is the world's largest producer and consumer of stainless steel, accounting for about 50% of the global production and is expected to grow over the next few years. Common stainless steel contains between 2-14% Nickel.

In 2006, nickel prices started to surge because of China's huge demand and China's nickel supply was affected. An opportunity surfaced when Chinese stainless steel producers realized that they need an alternative supplier for Nickel. China Steel was one of the first to start producing the alternative pig iron in 2006.

Nickel Pig Iron (NPI)

Laterite Nickel ore accounts for about two-thirds of the world's nickel resources but is generally not used for producing refined pure nickel because of its low nickel content that ranges between 1 – 2%.

After a series of sintering and smelting processes, removing impurities such as phosphorus, sulphur and silicon to specification, the laterite nickel ore can be processed into nickel pig iron that contains between 4% to 13% nickel with Iron and other metals accounting for the balance.

Chinese stainless steel producers use NPI, to which they will add chromium and other materials, to produce 200 to 300 series stainless steel which accounts for more than 70% of total stainless steel production in China.

The future of Nickel Pig Iron

The slowdown in China economy starting year 2015 has affected the Chinese domestic demand of nickel and NPI. Analyst has projected that the past stock pile made by the Chinese government has already been consumed and importation for nickel will continue.

With the Chinese Government Steel Industry Restructuring Program, many nickel pig iron producers have been shut down due to poor environmental standards. Hence with demand still continue to grow and supply of NPI being substantially reduced, demand for NPI from producers like China Steel is still strong.

Indonesian Ore Ban

In 2014, the ban on exports of unprocessed ore in Indonesia took effect, the result of legislation that was passed five years ago. Exports of lateritic nickel ore over the last several years to China have fueled the growth of its NPI industry. China's NPI plants rely exclusively on nickel ore, primarily from Indonesia and secondarily from the Philippines. It is estimated that Indonesia sold over 50 million WMT of high-grade saprolite ore to China in 2014, in contrast to the Philippines' supply of less than 10 million WMT of medium and high-grade materials. As there are limited sources of particularly high grade saprolite ore in our country, it is unlikely that the Philippines will be able to increase production to replace Indonesian ore.

However, a new decision by the Indonesian government, issued in January 2017, relaxing their ban on the export of nickel ore, provides the basis for uncertainty in the nickel market. In 2018, Indonesian government issued nickel ore export quota of not more than 28.5 million WMT.

1.8 Group's Strategic Plan

The Group intends to continue exporting nickel ore in China, which is its principal market. The Group expects that the industry will perform better due to surging China imports and continued rise in selling prices for the nickel ores. Also, the Group has successfully implemented cost management programs resulting to a lower cost per WMT produced.

The Group will continue maximizing profitability by taking advantage of the increase in global demand of nickel ore while continuing effective cost management.

ITEM 2. PROPERTIES

The Casiguran Nickel Project

Century Peak Corporation, the Company's wholly owned subsidiary, is the holder of Mineral Production Sharing Agreement ("MPSA") No. 010-92-X and a large-scale ECC-0707-017-2140 issued on November 29, 2007 over the mining tenement comprising of 1,198 hectares located in Loreto in the Province of Dinagat Islands (the "Casiguran Property"). As such, CPC is the sole claim owner of the Casiguran Nickel Project in Loreto, Province of Dinagat Islands (formerly part of Surigao del Norte) and all interests therein for its exploration, development and operation. A geologic resource evaluation was conducted by Dr. Carlo Arcilla, accompanied by a mining plan prepared by CPC's mining engineers, which paved the way for the conduct of initial operations.

On April 2010, CPC released an update entitled "Geologic Resource Evaluation of the Century Peak Corporation Casiguran Mine Prospect", prepared by Dr. Carlo Arcilla, a Competent Person in accordance with the definition of the Philippine Mineral Reporting Code (PMRC).

Based on the report, the Casiguran Mine Prospect has a combined indicated and measured resource of 9,897,000 DMT with a grade of 1.02% Nickel (at 0.8% nickel cut-off), subject to mining plans and metal recovery parameters.

Other Mineral Properties

In addition, CPC is the holder of MPSA No. 283-2009-XIII covering 3,188 hectares over Albor, Dinagat Province ("Albor") issued by the Department of Environment and Natural Resources on June 19, 2009. Last April 2010, a Resource Evaluation Report for its Parcel II Prospect covered by its MPSA 283-2009-XIII-SMR, prepared by Dr. Carlo A. Arcilla, reveals a combined indicated and measured resource of 9,067,000 DMT with a grade of 1.07% Nickel (at 0.8% Nickel cut-off), subject to mining plans and metal recovery parameters.

Moreover, CPC entered into a Memorandum of Agreement ("MOA") with Maharlika Dragon Mining Corp. ("MDMC") assigning to CPC the Operating Agreement executed by and among MDMC, as the operator and the Heirs of C.B. Gupana (owners of 52.5%) and CRAU Mineral Resources Corporation (with an interest of 47.5%) of the adjacent CRAU Property chromite-nickel prospect. Under the MOA, MDMC assigned all its rights, interest and title as operator of the CRAU Property under the Operating Agreement dated May 5, 2007 to CPC. The Operating Agreement which is covered by an Application for Mineral Production Sharing Agreement identified as APSA-086-XIII was registered with the MGB. The application is under evaluation by the MGB Central Office.

Previously, the CRAU Property had been actively mined for chromite by manual and semi-mechanical means, and a recent, thorough evaluation showed its promise as a chromite mine. However, its prospect as a nickel mine in addition to chromite has only been recently highlighted. Under the Geologic Resource Evaluation of CPC's Casiguran Property dated April 2008 conducted by Dr. Carlos A. Arcilla, a duly certified Competent Person in the field of Geology, Mineral Resource and Exploration (the "Competent Person's Report"), the CRAU Property has a big potential for mineralization because of the high-grade, high elevation nickel ore resources at the Casiguran Property, which is adjacent to the CRAU Property and the ore bodies have practically no overburden.

We have submitted our feasibility study and reserve report to Philippine Mining Development Corporation (PDMC), covering 81 hectares of PDMC's Pinamungahan Limestone Property, covering an area of 4,795 hectares located in Toledo and Pinamungahan, Cebu. In 2015, The Group already obtained the ECC and local government approval for the Cement, Power Plant and Limestone Quarry operation in the area and waiting for the notice to proceed from PDMC to start its operations.

There are no mortgage, lien, or encumbrances attached to any properties mentioned above.

ITEM 3. LEGAL PROCEEDINGS

There are no pending legal proceedings that could materially affect the Issuer.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There was no matter submitted during the fourth quarter of 2017 to a vote of the Company's stockholders, through the solicitation of proxies or otherwise.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

The following discussion and analysis relate to the consolidated financial condition and results of operations of the Group and should be read in conjunction with the accompanying audited consolidated financial statements and related notes as of and for the year ended December 31, 2017.

6.1 PLAN OF OPERATIONS

Mining Operations

The Group, through CPC, has continuing exploration work in its properties in the Province of Dinagat Islands. With the mining equipment and other assets already in place, mining operations and nickel ore extraction in its Casiguran and Rapid City Parcel II properties will likewise be more aggressive. This is in line with the Group's plans to market and export a minimum of 1,000,000 metric tons of nickel ore in 2018. This focus on mining operations is consistent with the Group's strategy to optimize its assets for mineral extraction in order to serve current demands for its mineral ore but would be cautious on the selling price.

The management looks forward to continue developing and exploring its mineral properties.

The Smelting Plant Project

The Group's smelting plant project, which is to be undertaken through its subsidiary CHGSI, is located in LIDE. The ECC for the smelting plant project was issued last April 16, 2010. Initial civil works have been undertaken on the smelting plant. However, in late 2013, typhoon Yolanda wrought massive devastation in Leyte Island, significantly impairing the value of CHGSI assets in Leyte. Despite this, the company is optimistic that it will be able to pursue operations in the future as negotiations with investors and technology partners are ongoing.

The Company entered into a partnership with Sidewide Resources (H.K.) Limited, a subsidiary of Chaoyang Saiwai Mining Co., Ltd. of P.R. China. This group owns an Iron Powder Processing Plant, Electric Furnace Smelting Plant, and primarily does trading of mineral ore. They have offices in Beijing, Shanghai and Hong Kong. It is the Company's plan to set up electric furnaces in the future to enhance the production of its nickel pig-iron at the LIDE.

The Coking Coal Plant Project

Also to be located at the LIDE, CHGSI has an approved application with PEZA for its proposed Coking Coal Production Project, and the Supplemental Agreement to its Registration Agreement last October 28, 2009 was signed into effect last March 01, 2011. The Company's Coking Coal Plant project will be a support system to its Ferro-Nickel Smelting Plant. It is CHGSI's approach to making the Ferro-Nickel Smelting Plant as self-sustaining as possible.

CHGSI has received its Amended Environmental Compliance Certificate (ECC), with Reference Code 1003-0011 issued by the Environmental Management Bureau (EMB), Central Office, to include the installation of a Coking Coal Plant to be located at the (LIDE) in Isabel, Leyte.

The Shipping Company

CSCI, an 80%-owned subsidiary of CPC, compliments the mining operations of CPC. It owns three (3) units of landing craft tanks (LCT) (self-propelled barges) with a capacity of 3000DWT. Two of the vessels are registered with the MARINA under the names of Century Summit 1 and Century Summit 2. The third vessel, Summit 3, has arrived in Surigao Port and undergoing customs clearance as of reporting dated. These vessels are utilized for the mining operations of CPC.

The management of CPMHC is confident that overall, operational targets for the year 2016 have been accomplished. Indeed, the potential of the Group's resources have been tagged and realized.

The Cement and Limestone Project

Through MPSA 046-96-VII and MPSA 047-96-VII expiring in 2021, the Group has 4,795 hectares in Pinamungahan, Cebu to mine limestone. And initial assessment in 2012 on an 81 hectare area estimate as indicated limestone resource of 34,000,000 metric tons.

In April and July 2015, the Group was able to obtain the ECC for the Cement Plant/Power Plant and Limestone Quarry Project, respectively.

As of record date, the command center for the Cement Plant located at Pinamungahan, Cebu is already installed, and infrastructure projects are currently on going.

6.2 RESULTS OF OPERATIONS

In 2017, 2016 and 2015, revenues of P324.5 million, P419.2 and P230.5 million, respectively were generated from operations, particularly from CPC's mining activities. The audited consolidated statements of comprehensive income reported a net loss of P56.9 million, P54.9 million and P61.6 million in 2017, 2016 and 2015, respectively.

6.3 OPERATING RESULTS FOR THE YEAR ENDED DECEMBER 31, 2017 COMPARED WITH YEARS ENDED DECEMBER 31, 2016 and 2015

The Group reported a consolidated net loss of P56.9 million in 2017 as compared to a consolidated net loss of P54.9 million and P61.6 million in 2016 and 2015, respectively.

The Group shipped 652,604 wet metric ton (WMT), 947,737 WMT and 337,349 WMT in 2017, 2016 and 2015, respectively.

The Group's revenue decreased by P94.7 million in 2017 as compared in 2016. Relatively, the cost of sales decreased to P204.7 million in 2017 from P333.6 million in 2016 or 39% decrease. The cost of sales includes depreciation, depletion and amortization, rentals, fuel and oil, contractor's fees, labor cost, materials, utilities and other charges.

The Group's operating expenses pertain mainly to taxes and licenses, royalties, excise tax salaries and wages, provision for impairment loss, professional fees, office supplies and service fee which represent 90% of 2017 total operating expenses. These expenses

represent 82% of the Group's total operating expenses in 2016. The total operating expenses increased by 45% or P28.4 million in 2017.

Provision for current income tax for the Group amounted to P11.1 million, P8.0 million and P10.7 million in 2017, 2016 and 2015, respectively.

6.4 FINANCIAL CONDITION

Consolidated Statements of Financial Position

Total current assets decreased by 8% or P13.2 million in 2017 as compared in 2016. The Group has total assets amounting to P3.0 billion as at December 31, 2017 of which P2.8 billion or 91% comprise of property and equipment, explored mineral resources and deferred exploration costs. Property and equipment include mine site development cost which applies to road network, pier and stockyards amounting to P366.1 million, net of related accumulated depreciation.

The liabilities of the Group mainly consist of payables to contractors, suppliers and related parties. Total current liabilities increased by 28% or P64.1 million in 2017 as compared in 2016. The payable to related parties represent advances which were used to finance the investing activities of the Group.

6.4.1 MATERIAL VARIANCES AFFECTING THE STATEMENTS OF FINANCIAL POSITION

Statement of financial position accounts as of December 31, 2017 with variances of plus or minus 5 percent against December 31, 2016 balances are discussed, as follows:

Current Assets

1. The decrease of P7.4 million in cash balance, from P49.0 million in 2016 to P41.5 million in 2017 is attributable to net cash flows provided by operating activities of P79.4 million, net of cash used in investing and net cash provided by financing activities amounting to P163.9 million and P77.0 million, respectively.
2. The increase in inventories from P63.7 million in 2016 to P79.8 million in 2017 is due to 741,181 WMT of nickel ore produced that is higher than the 652,604 WMT sold in 2017.
3. The decrease in other current asset from P50.1 million in 2016 to P28.2 million in 2017 is attributable mainly from allowance provided for long-outstanding advances to the contractors.

Noncurrent Assets

4. Movements in property and equipment is due to acquisitions of land, transportation and equipment and office equipment amounted to P73.3 million and depreciation charged in 2017 amounted to P77.2 million.
5. Increased in deferred exploration costs pertain to expenditures incurred related to exploration for economic mineral deposits for the limestone project in Cebu.
6. The increase in deferred tax assets account from P3.8 million in 2016 to P7.9 million in 2017 is mainly due to provision for impairment loss of long-outstanding advances to contractors.

Liabilities and Equity

7. The decrease in accounts payable and other current liabilities from P92.1 million in 2016 to P73.7 in 2017 is because of the customer's advance payment in 2016 for the shipments made in 2017 that was represented as the unearned revenue of the Group in 2016.
8. The increase in stockholder's advances to the Group from P127.2 million to P204.2 million was due to additional advances from the stockholders for the investing activities of the Group.

6.5 LIQUIDITY and CAPITAL RESOURCES

The table below shows the Group's consolidated cash flows for the years ended December 31, 2017, 2016 and 2015:

The Group has funded its pre-operating expenses through a capital-raising exercise that started in October 2007. The Group believes that it has sufficient resources to finance its working capital requirements. The Group expects to regularly undertake shipment of ore and the corresponding management and collection of receivables, and temperance of accounts payable. Long-term events such as the additional purchase of property and equipment can be met by the Group via infusions of either equity or debt through the shareholders. All funding for the Group's operations for the next 12 months shall be internally generated. The majority shareholder has committed to continually provide working capital to the Group to assure its continuous operations.

6.6 FINANCIAL SOUNDNESS INDICATORS

6.7 KNOWN TRENDS, EVENTS OR UNCERTAINTIES

Other than the current government policies, especially the vision of the DENR for the Mining Industry, wherein the Company is among those who passed their recent audit, there is no known event that will trigger a direct or contingent financial obligation that is material to the Company. Moreover, there are no known significant trends, demands, commitments or uncertainties that will result in or that are reasonably likely to result in the Company's liquidity increasing or decreasing in a material way. There are no material commitments for capital expenditures not reflected in the Company's consolidated financial statements. There is likewise no significant seasonality or cyclicity in its business operation that would have a material effect on the Company's financial condition or results of operations. There were no other significant elements of income or loss that did not arise from the Company's continuing operations. There are no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the Company with unconsolidated entities or other persons created during the reporting period. There are no line items in the Company's consolidated financial statements not already explained for causes either above or in the Notes to the Consolidated Financial Statements other than due to the usual period-to-period fluctuations in amounts natural in every business operations.

ITEM 7. FINANCIAL STATEMENTS

The consolidated audited financial statements as of December 31, 2017 of the Issuer and its subsidiaries are included in Part V (Exhibits and Schedules) of this report.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURES

There are no changes or disagreements with the Company's external auditors, R. G. Manabat & Co., CPAs, a Philippine partnership and a member firm of KPMG International, on accounting and financial statement disclosures.

ITEM 9. INFORMATION ON INDEPENDENT ACCOUNTANT

The principal external auditor is the firm R. G. Manabat & Co., CPAs. The Company engaged Mr. Vernilo G. Yu, partner of R. G. Manabat & Co., CPAs, for the audit of the Company's books and accounts in 2017.

ITEM 10. EXTERNAL AUDIT FEES AND SERVICES

The Group paid its external auditors the following fees for the last two (2) years for professional services rendered:

	2017	2016
Audit & audit-related fees	P1,000,000	P900,000
Tax fees	-	-
All other fees	-	-

Except for the audit of the Corporation's financial statements, no other professional services are rendered to the Corporation by the external auditor.

During the annual meeting of the stockholders of the Issuer on December 15, 2017, stockholders representing at least 2/3 of the outstanding capital stock of the Issuer approved the reappointment of R. G. Manabat & Co., CPAs, a Philippine partnership and a member firm of KPMG International, as the Corporation's independent public accountant for the periods (i) January 1, 2017 to December 31, 2017 and (ii) January 1, 2018 to December 31, 2018.

PART III

**CONTROL AND COMPENSATION
INFORMATION**

ITEM 11. DIRECTORS AND EXECUTIVE OFFICERS OF THE ISSUER

Directors

The following are the present directors of the Company whose terms of office are for one (1) year or until their successors are elected and qualified:

1. Wilfredo D. Keng-Director, Chairman of the Board and President
2. Emilio Tiu - Director
3. Leoben Luis Evangelista - Director
4. Guo Cong Yuan (a.k.a. Anson Tan) – Director
5. Daniel Pascual - Director
6. Jose Vicente Bengzon, III - Independent Director
7. Jose R. Cedo - Independent Director

Business Experience of Directors
